Uni-Tel Technologies, Inc.

Attn: John Nuss
10 Phyllis Street
Hazlet, NJ 07730

Dear John:

I would like express my sincere appreciation to you and your company for the past 12 months. *Uni-Tel Technologies* has demonstrated the skills to help complete the Telecommunications portion of a major renovation of Jersey Shore University Medical Center's Transformation Project in Neptune, NJ in which 2 new buildings and various existing areas were completed.

It has been an extreme pleasure working with *Uni-Tel's* knowledgeable staff especially yourself, your Project Manager, Jeff Jones and your lead foremen, Dave Thompson and Chet Choynowski. The professionalism they showed under many trying times made L.F. Driscoll's job much easier to complete.

During your time on the Transformation Project, *Uni-Tel's* team has completed the installation of Category 6 Cabling to 7 new floors of patient rooms, new offices and etc., a new paging system, construction of a new Data Center and multiple IDF Closets. A new Fiber Optic backbone was also completed by your staff during what has totaled over \$1,500,000.00 in contracts. All these tasks were completed under an aggressive schedule which *Uni-Tel* showed the ability and expertise to handle all the tasks presented to them.

L.F. Driscoll is very grateful to have established a relationship with *Uni-Tel Technologies* and hopes to continue a successful working relationship with you now and in the future.

Any further information regarding *Uni-Tel's* job performance can be gathered by contacting me at 610-721-3035.

Sincerely,

John Donnelly Jr.

L.F. Driscoll

Sr. Project Manager
